SUMMARY

I'm is an Information Engineering Undergraduate Student at Universitas Gadjah Mada with a strong passion, interest and experience in full-stack web and mobile development. His professional experince frontend developer and full stack developer.

WORK EXPERIENCE

08/2025 - Present

Fronted Developer

I-perfect for Pupuk Kaltim

Tech: Next.js, Tailwind

- Developed responsive and scalable frontend interfaces for internal company applications using Next.js and Tailwind CSS.
- Integrated API-driven components while collaborating with backend and UI teams to ensure seamless functionality.
- Maintained clean and reusable component structures to improve code maintainability and development efficiency.
- Assisted in optimizing frontend performance and ensuring responsive layouts across different devices.
- Supported feature implementation and bug fixing to improve overall user experience.

07/2024 - Present

Fullstack Developer

Eqariah Platform

Tech: Next.js, Tailwind, Node.js, MySQL, Azure, Vercel

- Developed and deployed a full-stack web platform featuring authentication, user dashboard, and admin panel.
- Built responsive frontend using Next.js and Tailwind while implementing backend REST APIs with Node.js and MySQL.
- Configured cloud deployment using Vercel and Azure, including environment variables and domain management.
- Implemented secure authentication flows and role-based access for users and administrators.
- Initiated development of a cross-platform mobile version using React Native.

03/2026 - 05/2026

Information System Intern

Direktorat Penelitian Universitas Gadjah Mada

- Collected, processed, and analyzed data required for the development of information systems.
- Implemented system modules based on predefined system design and analysis specifications.
- Conducted application testing to ensure functionality and operational readiness.

- Prepared system documentation and user manuals to support application usage.
- Performed system maintenance including data updates, monitoring, and periodic improvements.
- Managed and maintained information system databases.
- Updated and maintained data records within the information system environment.
- Provided technical support and assistance to stakeholders related to system usage.
- Managed and archived digital documentation related to system operations.
- Reported progress and results of assigned tasks to supervisors.

01/2026 - 02/2026

Backend / Security Developer Intern

PT Indonesia Satu Tujuh

Tech: Go (Golang), Docker, REST API, Google OAuth

- Developed NapScan, a vulnerability scanning system for websites and applications to identify potential security risks.
- Implemented backend services using Golang to process scan requests and generate vulnerability reports.
- Integrated Google OAuth authentication for secure user login and access management.
- Containerized the application using Docker to ensure consistent development and deployment environments.
- Managed deployment and system configuration to maintain stable operation of the scanning service.
- Designed REST API endpoints for submitting scans and retrieving results.

01/2026 - 02/2026

Backend / Security Developer

Napscan

Tech: Go (Golang), Docker, REST API, Google OAuth

- Developed a vulnerability scanning system for websites and applications to identify potential security risks.
- Implemented backend services using Golang to process scanning requests and generate security reports.
- Integrated Google OAuth authentication to enable secure user login and access control.
- Containerized the application using Docker to simplify deployment and environment management.
- Managed deployment and system configuration to ensure stable and scalable execution of the scanning service.
- Built API endpoints to handle scan requests, result retrieval, and system monitoring.

05/2025 - 07/2025

Web Developer (Fullstack)

SMAPGRI 1 Gombong Website Tech: Firebase, Node.js, Vercel

- Designed and developed an official website for SMAPGRI 1 Gombong using Firebase Hosting and Firestore.
- Integrated custom UI/UX and implemented content management functionality for staff/admin.

05/2025 - 07/2025

System Scripting + Data Optimization

TPSProject (Wi-Fi Usage Monitor)

Tech: PowerShell, Python, Google Colab

- Wrote custom PowerShell scripts to monitor café Wi-Fi usage (duration, traffic, device).
- Collaborated with teammates on Python simulation; optimized and migrated code to Google Colab for visualization.

05/2025 - 07/2025	Earthquake data classification and prediction Machine Learning Tech: Python, Jupyter Notebook, Decision Tree - Trained ML models to classify and predictions earthquake data based on magnitude & depth. - Implemented complex tree-based algorithm for pattern recognition.
05/2025 - 07/2025	Personal Project (POS Simulation) Store System Tech: JavaScript, HTML, CSS Developed a cashier system simulating point-of-sale features, product listing, and transaction logs.
05/2025 - 07/2025	Mobile App (Experimental) RateReel Tech: .NET MAUI - Built a basic movie rating application using public film APIs. - Focused on learning cross-platform mobile app logic and API consumption using C#.

ORGANIZATION & COMMITTEE EXPERIENCE

03/2024 - 09/2025	Staff Interest & Talent Division, KMTETI UGM Organized programs that foster student interest and talent development
10/2024 - 05/2025	Head of Operational NESCO 2025 - Led logistics team and coordinated event materials preparation and readiness - Ensured smooth operational flow across pre-event, main event, and post-event stages

EDUCATION

08/2023 - Present	Information Engineering Universitas Gadjah Mada Undergraduate Student
2020 - 2023	Math and Science SMA AL ISLAM 1 SURAKARTA

CERTIFICATES

03/2024 - Present	Pelatihan WEBDEV 2 Divisi Workshop Keluarga Mahasiswa Teknik Elektro dan Teknologi Informasi Fakultas Teknik Universitas Gadjah Mada
-------------------	--

05/2025 - 05/2028	Deep Learning in Python ↗ datacamp
05/2025 - 05/2028	Belajar Dasar Pemrograman Web ↗ dicoding

SKILLS

SEO + DevTools	Intermediate	Nextjs	Advanced
Vercel Deployment	Advanced	Node.js + API	Advanced
Git, Postman	Advanced	React Native	Intermediate
MongoDB/Firebase	Intermediate	Tailwind CSS	Advanced
Prisma + MySql	Advanced	HTML, CSS3	Advanced
Go lang	Intermediate	Docker	Intermediate

LANGUAGES

Indonesia	Fluent	English	Intermediate
-----------	--------	---------	--------------
